BEAR CATS PLEASED NORMALS MIGHTILY LAST NIGHT—33-25.

NOTHING LEFT TO BE DESIRED BY LOCALS

Clean Game, Fast Playing, High Enthusiasm, and Holiday as Quintet Did as It Had Been Done By.

If there was anything by which that basketball game at the Normal could have been improved upon from a Maryville point of view last night no one has mentioned it yet in the presence of friends or enemies.

Of course, the last game always seems like the best, but almost anyone who saw the game last night will tell you that there never was such a game here as the one in which the Bearcats did the hugging act and made the Tark championship aspirants expire with a 33-25 moan.

Picking a star from among the Normal team is just like choosing one of two week-old twins. The line-up was shifted back to one of earlier in the season arrangement, with "Dad" Scarlett at center and "Pig-Iron" McClintock at guard. Leech is getting the most credit today for slipping them into the basket, two of his shots near the end of the game being of the semi-miraculous variety.

The light-haired captain also was better than usual at his floor work last night and often pulled his favorite stunt by going into a crowd and coming out with the ball. But Vandersloot can't be left far behind in the credit line, in fact only a shade. For he was doing much of the unselfish act of feeding the "pill" to the other fellow. His work of taking the ball down toward his goal was particularly noticeable.

Bearcats an All-Star Team.

"Van" was also there with the free throws from the foul line as usual. And honestly, Scarlett may have had a sprained finger, but he made that big center for Tarkio, standing four or five inches higher and weighing at least 25 pounds more, look like he had nothing but size.

Now for the guards. Again it would take an expert to distinguish between the two. McClintock lived up to his "Pig-Iron" nickname by breaking up more tries than any guard this year probably. They couldn't get by him. Homer Scott starred by adding an offensive punch to his defense and going down with the ball constantly.

The largest crowd ever jammed into the Normal gymnasium saw the game, and it was some howling, wild crowd of feverish rooters that reminded one of the bleachers in a world series game. More than four hundred paid admissions were received. Tarkio brought more than fifty along, and they were a loyal bunch of noise makers.

Everett Barr, Russell Rector and Russell Harte, track men, walked the entire distance from Tarkio.

C. M. Bloomfield, W. H. Carothers, Albert Nute, W. G. Machetanz and William McCullough walked to Burlington Junction and decided that the railroad looked best from there on. More than twenty-five "co-eds" were in the group and the Linville was unable to accommodate all who wanted rooms there last night.

The Normal students got together in better shape last night than at any time this year, and Verne Pickens at one end of the crowd and Miss Carrie Coler at the other kept the Normal yells moving along at the maximum of uproar. When the Tarkio crowd got in the middle of the floor with a huge megaphone during the intermission, the din was continuous for almost the entire time between halves.

Meanwhile Springfield normal was stepping on all the hopes of Drury by a 39-19 victory. But the game was played on the Springfield normal court and it would take twice as good a team to beat the Ozark normals on their own court, those who have played there say.

Drury Will Seek More Games.

If no more games are scheduled, Tarkio would probably have the championship, for Drury has less games and one defeat would mean a greater loss in the percentage. But Dan Nee is seeking more games and will probably make another trip into the north of the conference.

Walter Hanson, director of athletics at the Normal, is making every effort to get a game with Drury here, but he does not have much hope, for "canny Danny" doesn't want games that there is much possibility of losing. J. C. Elder of Tarkio has hopes of getting more games, too, and thus help his percentage up.

"I believe I will try to get two more games," Elder said at the close of the game last night. "All right," said Hanson, "We'll take them on, another here and another on your court." But not for Elder. He got all the Bearcat fur which he desires this year.

How arranging a schedule may get a championship is shown by Tarkio. They are playing just as few games as the conference will permit, seven and three only were away from home. They boosted themselves about being the only team in the conference to make a trip and be undefeated, and their "trip" consisted of a visit to William Jewell and Missouri Wesleyan at Cameron.

Mr. Hanson will make an effort at the next meeting of the conference to have another ruling added, providing that at least four foreign court games must be played. The Normal played six of their eleven conference games away from home.

Concerning the Tarkio Team.

Yes, just as so many thought, the story of Grimm not being in the game was a "bear" story, which is a polite term in sport circles for saying that the senders of the report merely want to deceive the other team into believing they are going to be weaker than they are. But Mr. Grimm was both gaunt and grim before he got through being run ragged by the Normal forwards. He was assisted in his unsuccessfulness by Boettner.

Tarkio lost because Maryville ran away from them, and because they could not find the basket. The Tarks got eight points out of ten throws from the foul line in the first half before they threw a field goal. Then they made two more free throws. Suddenly, to the surprise of everyone, they showed the one real flash of good playing in the last minute of the first half, slipping in two field goals and causing the half to end with the visitors leading 16-12.

The Bearcats came back strong, however, and the uneasiness felt in the intermission by reason of being behind just made the pleasure of climbing back up all the more enjoyable.

The Normals tied the score on free throws before either side made a field goal. This was remarkable from the fact that the first eight points of the Tarks' was that way in the first half.

But the would-be champs never did find the basket, and two field goals was the best they could do in the second half. Fifteen of their ten points were made from twenty-three chances from the foul line, thrown by Captain Thomas. Vandersloot got but fifteen chances and threw nine. Almost three times as many fouls were called on Maryville in the first half, but the crowd received the refereeing of "Red" Brown without question throughout the game.

Leech got six field goals, Vandersloot three, H. Scott two, and Scarlett one. Walter Scott replaced McClintock in the last half of the second session. Thomas, Cowger and Grimm got one goal each. Baird was able to get two. It will be seen from this that the count by field goals was 12 to 5, or in points counted 24 to 10. McCoy and Younger were the Tarkio substitutes.

Holiday at Normal in Morning.

A special assembly was called this morning at the Normal by President Ira Richardson. After several yells by the students, Captain Leech, Director Hanson, Coach Palfreyman and W. A. Blagg, chairman of the board of regents, were called upon for speeches. Lowell Livengood, president of the student body, also made a short talk after which President Richardson, in a short address announced a basket ball holiday for the rest of the forenoon in honor of the victory.

Most of the time was spent at the building in yelling and cheering and celebrating as only college students can after an important victory. The authorities of the Normal are particularly pleased because of satisfactory features of the game in every way. A win, good feeling on both sides, a huge crowd, and a cleanly played game all the way.

As one of the Normal girls said after the game, "How delicious a way to end the season."

An interesting co-incidence in connection with the game was the predictions of Hanson and Palfreyman. Each was asked before the game if they thought the Bearcats would win. Each replied affirmatively. "By how many points?" Hanson said "six" and Palfreyman "ten." They won by "eight."

Miss Hazel Lake, who had been visiting her mother, Mrs. Alice Lake, left yesterday morning for Des Moines.

CROWDS PLUS FUN

BOOTHS AT YEOMEN CARNIVAL ADD TO ITS ATTRACTIVENESS

GOOD BUSINESS DISPLAY

Opening Night Found Third Floor of Mutz Building Jammed With People Out for a Time.

If the most enthusiasm in town wasn't out on the State Normal grounds last night, then it was on the third floor of the Mutz building, where a very large crowd attended the opening night of the Yeoman carnival. The booths were very attractive and the money making booths for the Yeomen lodge were well patronized.

Frank Vrooman sang a number of solos, which were well received. Mr. Vrooman, whose home is in Kansas City, is said to be one of the leading young tenor singers in musical circles there.

The home-made candy booth was very appealing to many visitors, and the proceeds will go to the Yeomen flower fund, and from indications the fund will be very substantially increased.

Going into the main room, the Pearson drug store booth has a display of toilet articles and stationery, so arranged as to make a beautiful display. The next booth to the right is Reuillard's, which consists of a tempting display of butter-nut bread. The Democrat-Forum booth is next, and, as usual, needs nothing but The Daily Democrat-Forum to make it attractive.

Schumachers' booth has a display of foodstuffs, fancy pickles, fruit and the like. Mrs. Will Foster has charge of the booth, and served hot coffee and wafers.

The Marcell studio has a display of photos, and the Empire theater a large shield with the State Normal film tacked about the booth.

Many Attractive Booths.

The Landon Music company has two victrolas in their booth, and Miss Marie Reuillard had charge during the evening. Across the end of the hall was arranged the court room, where the mock trials were held, and many are the good and honest citizens who were arrested and fined for minor offenses.

On the other side of the hall, going west, first is the booth of Price-McNeal, a very small but perfectly appointed library constituting their display.

The Barmann Automobile company has everything in the way of repair suggestions and tires. Tom Bagby had charge of the booth last evening.

The Alderman-Yehle store has a number of pennants and pillow tops of the Maryville State Normal and the Maryville high school, and practically every town in the county. This booth caused much favorable comment.

The Edwards Music company was giving away sheet music and small folder which read: "How We Lost Our First Customer," and when the curious opened the folder they read in small type in the lower corner: "He died."

The Montgomery Shoe Co. had a unique display of different leathers used in the making of shoes and several nifty style boots.

The Buhler meat shop tempted the throng with a string of weenies, bologna, crackers and many other good things to eat.

The Garrett hardware store had a keen display, sharp if not to the point, for any kind of razor that would do the work were neatly displayed, with an array of aluminum.

The Murphy Clothing company featured their made-to-measure department, and had a display of piece goods.

U-BOATS ON TIME

TWO BRITISH MERCHANTMEN SUNK AT DAYLIGHT.

IN LULL AROUND VERDUN

Allies Are Pounding All Important Points in Effort to Relieve Fortress.

Special to The Democrat-Forum.

London, March 1.—Germany's new submarine war against British shipping as threatened in a warning notice sent to the United States government, opened on schedule time. It was set to go into effect at midnight.

Before noon today news had been received of the torpedoing of two merchantmen by the Kaiser's undersea boats. They are the Bronaby and the Malvania. It is announced that all of the crew of the Bronby were killed by the attack or drowned. The fate of the Malvania crew is not known.

From the speed with which the U-boat war is launched it is evident as had been expected, that the submarines were sent out in advance with orders to begin the attacks as soon as enemy ships were sighted today

The news of the sinking caused great anxiety in shipping circles. Insurance rates were immediately raised.

German-Portuguese Diplomatic Break.

Berlin, March 1.—It is reported that Germany will recall its minister to Portugal and that diplomatic relations between the two countries will be severed because of the seizing of the German ships in Portuguese harbors. Austria is expected to take similar steps at once.

Comparative Lull at Verdun.

Berlin, March 1.—A comparative lull exists at Verdun except for reciprocal cannonades, it is indicated in the official announcements of the German war office. A heavy bombardment has been opened up on all of the main German positions along the west front.

This is taken to be an effort to draw off some of the offensive against Verdun. These attacks grew into violent artillery duels in the Woevre district. Three aeroplanes, one British and two French, were shot down.

British Steamer Helpless in Mid-Ocean.

Halifax, March 1.—The British steamer Sancnofro is helpless in the middle of the Atlantic. A wireless call for assistance has been sent, but it is feared that it cannot be reached before tomorrow.

SLOGANS COMING IN

FEW OF BEST RECEIVED GIVEN AS SUGGESTIONS.

BABY WEEK IDEA GROWS

Federation of Women's Clubs Issue Statement on Growth in Popularity.

The interest taken in Baby Week, which will be observed in Maryville March 4-11, is shown by the large number of responses received to the request for slogans for the week. The call was printed last night and the following suggestions had been received by noon today:

"Take care of the Babies and the Nation will take care of itself."

"Better Babies; Better Mothers; Better City."

"Baby's Rights Our Delight."

"Good Care—Good Fare—Good Babies."

"Not More Babies but Better Babies."

"The Nation's Pride—Our Babies."

The latest date in which a slogan can be considered has been changed to Friday night. All suggestions must be in the hands of Mrs. E. G. Orear at the Orear-Henry drug store before Friday night, so that the motto for Baby Week may be selected by the committee and published in the papers Saturday.

What Baby Week should mean and what the Federation of Women's Clubs believe it is coming to mean in Maryville is given in the following statement from the publicity committee:

"The interest in Baby Week continues to grow, and the general feeling is that it should amount to something more than simply a celebration; that it should be the beginning of a permanent effort in each community to care for children in every way. The march of civilization is indicated by the care that is taken of the children and, above all, of the health of the child. Civic conditions are largely responsible for health, and, consequently, it is to the interests of each community to stand before the world as the place where more children survive babyhood than any other place of its size, or, at least, that the record is as good as in any other such place."

WILSON WILL GET VOTE OF APPROVAL

STRONG BELIEF IN CONGRESSIONAL CIRCLES AFTER REQUEST.

ESSENTIAL TO OUR DIGNITY, HE THINKS

Europe Must Learn People and Representatives Are Back of President in Crisis.

Special to The Democrat-Forum.

Washington, March 1.—The president's hands will be supported by congress. Even the men who believe that the resolution should be passed by congress calling upon Americans to stay off of belligerent ships during the war, will not place themselves in the position of repudiating the stand assumed by Wilson.

The president's letter, in which he makes known to all the nation that he believes his position is essential to maintaining the nation's honor, is believed to have caused the crisis between the chief executive and congress.

The foreign affairs of the house will prepare a resolution endorsing the President's stand today, Representative Flood, chairman of the committee, said after a conference with Senators Stone and Kern, that it was certain that the resolution would pass.

Comes as Request From Wilson.

The vote which congress will take has been made necessary by a request, amounting to practically a demand from President Wilson that his course be supported by a vote of approval and confidence in congress.

Wilson has held since the "revolt" in congress last week that anything short of a vote of approval will be taken in Europe as a rebellion which has been hushed down and that the people and their representatives are not back of the president.

A precedent was smashed and the foreign affairs committee of the house was snubbed when the president addressed his request for a vote to the rules committee of the house.

Senate in Hot Debate.

Immediately after the convening of the senate that body became embroiled in a hot debate to break the deadlock on the Shields bill for conservation measures and thus permit a consideration of the Gore resolution warning Americans off of belligerent ships.

OUR APPRECIATION.

The Democrat-Forum begs to acknowledge the receipt and to express its appreciation of The Tribune's "congratulations." In a bilious editorial of more than a column, a few days ago, the editor of the Tribune makes public confession that The Democrat-Forum is a success The fact has become too well known to be of news value but the confession is interesting.

It is an apparent effort to relieve itself of a superabundance of poison gases that have been accumulating in the bosom of our esteemed contemporary. To be a success a newspaper must have the confidence, respect and encouragement of the public which it serves, and the silly charges contained in the article in question amount to an insult to the intelligence and integrity of the local public. According to the tenor of that editorial we must understand that the people of Nodaway county and the business men of Maryville are giving their business and support to The Democrat-Forum, not because it gives value received, not because it is an honest newspaper and stands for the best interests of the town and community, but because of some discreditable conduct that has won popular favor. Such suggestions are unworthy even of the editor of the Tribune.

Our self-anointed friend Hull assumes a "holier than thou" attitude and thanks his Maker that he is not as other newspaper men. He would have you believe that the Tribune lacks support because it is too honest to be appreciated by the public. A fine tribute to the good people of this community.

The statement that "The Democrat-Forum takes whatever comes with the price," like a number of other statements, is an absolute and unqualified falsehood, made without warrant or excuse. The Democrat-Forum is a business institution and takes what it regards as legitimate business secured in a legitimate way. It has never begged for business through sympathy nor on personal grounds, and it has never taken a solemn oath to a circulation statement that it couldn't prove.

The Tribune says The Democrat-Forum "always consults the course of the winds of popularity and then boldly trims its sails to suit the breeze." If that were true, we would be impelled to thank him for the compliment. To be able to determine "the course of the winds of popularity" is a rare accomplishment. The editor of the Tribune discovered this fact during the last presidential campaign. He flirted with the breeze from Oyster Bay, and when Taft was renominated, displayed the wonderful courage of his convictions by making a bold dash for the tallest tree in sight, climbed out to the end of the longest limb and remained there until the election was over. He was afraid even to say a word for his own county ticket.

The Democrat-Forum believes that "it is the duty of a newspaper to promote things which will benefit the community in which it circulates," and it does so. It, however, does not assume to be a dictator to an intelligent public, and it does not recommend and become hysterical over every chimerical project or hallucination that may spring from an impractical brain. The Democrat-Forum appreciates the confidence of the public to the extent that it desires to be a safe and sane advisor at all costs and under all circumstances.

The people of Maryville and Nodaway county know both the Tribune and The Democrat-Forum and can take their own measurements. The Tribune congratulates itself that it is in the minority rather than "pay the price" of popularity The Democrat-Forum is perfectly willing to have it remain there.

ABOUT GARY PLAN

HOW FAMOUS EDUCATIONAL SYSTEM IS OPERATED.

BY U. S. INVESTIGATOR

Report Just Issued by Bureau of Education, Written by Supt. J. H. Van Sickle.

"When a scheme is proposed by which existing school buildings may accommodate two sets of pupils, it is no wonder that wide interest is aroused," declares Supt. J. H. Van Sickle of Springfield, Mass., in describing the spread of the Gary plan of school organization in a report just issued by the United States Bureau of Education of the Department of the Interior.

"Any plan that will lessen the expense of housing school children makes a strong appeal to boards of estimate, school boards, and the press. School boards are not willing, however, to be hurried into adopting, for exclusive use in a situation quite different from the customary one without carefully testing its applicability."

Arguments for and against the Gary plan are presented by Superintendent Van Sickle. He says:

"The Gary plan is advocated largely but not exclusively, on the ground of lower cost. There are those, however, whose approval is based upon the claim that by means of a longer school day it affords to the children wider opportunities for work, study, and play; that it distributes the burden of teaching more evenly over the entire teaching staff; and that it affords prevocational training to all children in all of the grades instead of confining such work to a small group of children in the seventh and eighth grades.

"The Gary system has commended itself to students of education for various reasons. It promises:

1. An enriched school life for every pupil.
2. A coordination of all existing child-welfare agencies and a fuller utilization of all facilities in present public and private recreational institutions.
3. A solution of the part-time problem.
4. A double school plan by which each school seat serves two children.
5. A wider use of the school plant.
6. An increase in the school day through a co-ordination of work, study and play activities.
7. A program that would invest the child's nonacademic time to greater profit and pleasure.
8. A socialized education in harmony with progressive thought of the day.

"On the other hand, those who oppose the immediate and wholesale adoption of the duplicate plan for the elimination of part-time express doubt as to certain novel features of school administration which it embodies, such as departmental teaching for all children from the first year through the eighth, instruction of groups of children by pupils instead of teachers, the grouping together of younger and older pupils for auditorium, laboratory and workshop exercises, the substitution of an auditorium period for classroom instruction, the omission of formal physical training, supervised play with only four teachers for 12 classes, the deferring of scholastic work for first-year children until late in the afternoon. They urge that sufficient time has not elapsed to test the worth of the schemes.

"A further criticism is that outside instruction in the home or in the church is permitted, but that no means is provided for seeing that such instruction is the equivalent of regular schooling.

"To this criticism the reply is made that it would be very unfortunate if the school undertook to insure that such instruction should be the equivalent of regular schooling, for in that case the school would be supervising religious instruction which the law expressly prohibits. The program simply provides that the child can be excused during the day to take private lessons at home or attend religious instruction, if the parent so desires. These periods are never taken from the academic work and therefore do not detract from the regular work of the school. As in the case of play and auditorium, it is simply time which, in the traditional school, the child would spend upon the street. What is taught in these outside classes and how it is taught is not and should not be the concern of the school."

Interest in the Gary plan is by no means confined to the larger cities, Superintendent Van Sickle finds.

"Even in communities where the part-time problem is either less acute or else nonexistent, and where the expenditures for school have not become so burdensome as in New York, there will be decided interest in the Gary duplicate plan. This gigantic experiment in education, now in full operation in the largest American municipality, is unquestionably of vast importance, yet the changes required in installing the system in existing schools are to await the result of an adequate trial in New York City before departing from the present policy which reserves a seat for every child."

Not a Success at Des Moines.

Commission form of government is declared a failure by a city official of Des Moines, Ia., which has had that form of government for seven years, being one of the first cities of importance in the country to take up the fad. The indebtedness has increased over a million and partisan politics, which commission government was supposed to eradicate, is as rampant as ever. No matter what form of government a city or state has it will not be honest and free from graft until honest men are elected to office. The kind of men elected to administer the laws is more important that the form of government.—Chillicothe Constitution.

Do Something for your Cold.

Do not let it wear you out and encourage sickness. Take Dr. King's New Discovery. You will get instant relief.

Most of us neglect coughs and colds. We brush suggestions aside with the remark "I'll be better soon," and oftentimes we do get better. However, when that cough or cold gets a hold, it usually means annoyance, interference with our work and often a spell of sickness follows. Isn't it better *immediately* to check that cold and ease the cough? Dr. King's New Discovery does it! Search as you will, you will not find a better remedy.

Dr. King's New Discovery is made of Pine Tar mixed with soothing balsams and laxatives. It's antiseptic and kills the germs, allays the cold-fever and soothes the irritated, inflamed throat. The very first dose gives you relief. You cough with less strain. And if you have a hacking or dry night cough, grateful relief follows and you soon drop into a restful and refreshing sleep. Get a bottle to-day and let Dr. King's New Discovery be your cold and cough doctor. At all druggists.

Throat Weakened by Diphtheria Daughter Caught Cold Easily

St. Joseph Lady Tries Vap-O-Rub—Now Doesn't Like to be Without It.

This is one of a series of one hundred advertisements, each ad embodying letters from different Missouri Women from all over the State. Last winter, in order to try out this new preparation, each lady was given, by her druggist, a complimentary jar of Vap-O-Rub, on condition that it be given a thorough trial. These letters are their reports. We will pay the sum of $100.00 to any person proving that any of these letters are not genuine.

Mrs. Sam House, 1206 Prospect Ave., St. Joseph, Mo., has a message for all those mothers whose little folks catch cold easily, or are subject to croupy spells. C. J. Schenecker & Co., Druggists, sent Mrs. House a complimentary jar of Vap-O-Rub last winter, with the request that she give it a thorough trial. Mrs. House reports as follows:

"My little daughter had Diphtheria last fall, and now every little cold she takes settles in her throat. We have thought twice she was going to have Diphtheria again, but during one of her bad spells my druggist sent me a package of Vap-O-Rub. I used it for four nights on her throat, and got such good results that now I don't like to be without it. I have used it for myself and husband for bad colds, and found it just fine."

The way to keep the family free from colds is to keep the windows wide open at night, so that plenty of fresh air can circulate in the bedroom. Then whenever they show the first signs of a cold, rub Vap-O-Rub well over the throat and chest and cover with a warm flannel cloth. Leave the covering loose around the neck, as the heat of the body releases the ingredients in the form of vapors. These soothing antiseptic vapors are breathed in with each breath, all night long through the air passages to the lungs, and at the same time Vap-O-Rub is absorbed through and stimulates the skin, aiding the vapors inhaled to break up the congestion. The next morning the phlegm is loosened and the soreness gone from the lungs.

Vick's can be had at all first class drug stores in three sizes, 25c, 50c or $1.00—or we will gladly send a sample free on request. The Vick Chemical Company, Greensboro, N. C.

CROWDS PLUS FUN

(Continued from page 1.)

The Moyer-O'Grady restaurant was giving away Holy brand chocolates. Their display was chiefly restaurant supplies.

Really then, it seemed like a regular street fair, for a man in the next booth was making spun-sugar candy, you know, the kind that looks like a whole lot but it isn't.

The "Do It Electrically" booth had many electrical suggestions.

Many seemed inclined that way. A charge of five cents was made for each dance, and the jitneys were not at all scarce.

Any number sought the fortune teller and were told just what they wanted to know about their future. The fortune teller was very kind to the young women especially, and many were given new hope that the leap year would be very successful.

By the way, there was some tempting looking punch that looked very much like red lemonade that was served during the evening. And one should never forget red lemonade.

Visited in Hopkins Yesterday.

CONSOLIDATION LOSES 62-2

No Effort Made at Clearmont to Carry Election Since Opposition in Rural Districts Became Strong.

By a vote of sixty to two the proposition to consolidate the schools of Clearmont and the four districts around were defeated. The agitation was given up ten days ago by those who filed the petition with the county superintendent asking for the election.

Although the vote could not legally be called off, it was generally agreed that all the votes should be "against" when it was found that the farmers were becoming bitter against the merchants of Clearmont. Prof. George Sommerville of the Clearmont schools was asked by Superintendent Cooper to open the meeting.

J. H. Lemon was elected permanent chairman. L. A. Stelter was made clerk. E. A. Hawkins and George W. Sommerville were the tellers. When the vote was counted, it was found that only two from sixty-four voters were in favor of the consolidation.

RICHARDSON TRIAL MARCH 12

No Bail Asked When Date Was Set So Soon for Man Who Killed Berryman.

The case of William Richardson, charged with the murder of John E. Berryman, was set in the criminal court today for Saturday, March 12. The jury will be secured that day, and it is presumed that the trial proper will begin the following Monday.

Judge Ryan held the criminal court open to 3 o'clock this afternoon, supposing that attorneys for Richardson would seek to have their client released from jail on bond. The attorneys were present at that hour, also a number of South St. Joseph citizens, who offered themselves as sureties. Among those who volunteered to sign the Richardson bond were Horace Wood, J. O. Barkley, A. B. Swift and J. C. Sager. After a consultation, however, the attorneys for the defense decided that, since there was to be an early trial, they would make no attempt to have their client admitted to bail.—St. Joseph News-Press.

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty in a Few Moments— Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now.

The Democrat-Forum's number on the People's telephone is 114. Call us up often.
